Foreword..... xvii
 Preface xix

CONTEXT

► Chapter 1 Introduction

1 Human-Computer Interaction: Definition, Importance and Scope..... 2
 1.1 Quality Human-Computer Interaction..... 2
 1.2 Scope of HCI 5
 2 Themes in HCI Underlying This Book..... 6
 2.1 Fit..... 7
 2.2 Levels of Interaction 9
 2.3 Human Resources in HCI and their Impact..... 10
 2.4 Context..... 11
 3 Application—A Methodology for HCI Development 12
 4 The Structure of the Book 14
 5 Summary..... 16
 6 Summary of Concepts and Terms..... 17
 7 Bibliography and Additional Readings 18
 8 Case Study 19
 9 Exercises..... 19

► Chapter 2 Organizational and Business Context

1 Introduction 22
 2 Individual Level..... 23
 2.1 Office Automation Systems..... 24
 2.1.1 Electronic Document Preparation Systems 24
 2.1.2 Data Entry Systems 27
 2.1.3 Customer Account Management Systems 27
 2.2 Knowledge Work Systems (KWS) 29
 2.3 Decision Support Systems (DSS)..... 31
 2.4 Executive Support Systems 32
 3 Work Group Level 34

3.1	Project Management Systems (PMS)	34
3.2	Work Flow Management Systems	36
3.3	Group Support Systems	39
3.3.1	GSS User Interface	39
3.3.2	Shared Workspace.....	40
4	Organizational Level Systems	41
4.1	Communication Systems	41
4.2	Enterprise Resource Planning (ERP) Systems	43
4.3	Customer Relationship Management (CRM)	44
5	Interorganizational Systems.....	44
6	Summary	45
7	Summary of Concepts and Terms	45
8	Bibliography and Additional Readings	45
9	Case Study	48
10	Exercises	49

FOUNDATIONS

► Chapter 3 Interactive Technologies

1	Introduction.....	52
2	Sensory Perception and Interactive Input Devices	52
2.1	Devices That Rely on Vision	53
2.1.1	Keyboards	53
2.1.2	Pointing devices.....	54
2.2	Devices That Rely on Audition—Speech Recognition	56
2.3	Devices That Rely on Touch.....	57
3	Output Devices	57
3.1	Visual Display.....	57
3.2	Printers	58
3.3	Auditory Output—Nonspeech	59
3.4	Auditory Output—Speech	59
4	Wearable Devices.....	60
5	Wireless Devices.....	60
6	Virtual Devices	61
7	Summary	62
8	Summary of Concepts and Terms.....	63
9	Bibliography and Additional Readings	63
10	Case Study	64
11	Exercises	65

► Chapter 4 Physical Engineering

1	Introduction	68
2	Human Performance and Limitations.....	69
2.1	Performance and Other Criteria for Physical Engineering.....	69
2.2	Limitations.....	71
2.2.1	Sensory Limits.....	72
2.2.2	Responder (Motor) Limits.....	72
2.3	Fitts' Law	72
3	Sensory Perceptions and Implications for Design.....	73
3.1	Vision.....	73
3.2	Audition.....	75
3.3	Touch	76
4	Health Problems Associated with HCI.....	78
4.1	Emissions.....	78
4.2	Repetitive-Motion Problems	78
4.3	Vision Problems	79
4.4	Muscular Problems.....	79
5	Technical Support for the Disabled	81
5.1	Support for the Visually Impaired.....	81
5.2	Support for the Hearing-Impaired	81
5.3	Support for Physically Impaired.....	81
6	Summary	82
7	Summary of Concepts and Terms.....	83
8	Bibliography and Additional Readings	83
9	Case Study.....	84
10	Exercises.....	84

► Chapter 5 Cognitive Engineering

1	A Simplified View of Human Information Processing	88
2	The Complexity of HCI.....	90
2.1	HCI as a Bridge between Human and Computer	90
2.2	The Gulfs of Execution and Evaluation	91
2.3	Norman's Seven-Stage Model of User Activity	92
2.4	Fit and Complexity	94
3	User Activity with Multiple Intentions.....	95
4	Using GOMS to Describe User Activity	98
4.1	Goals, Operators, Methods, and Selection Rules	98
4.2	Using GOMS.....	99
5	Errors.....	102
5.1	A Classification of Errors according to Behavior Type	102
5.2	The Causes of Error.....	103

6	Fit and Complexity Extended	104
7	Summary	105
8	Summary of Concepts and Terms	106
9	Bibliography and Additional Readings	106
10	Case Study	106
11	Exercises	107

► Chapter 6 Affective Engineering

1	Introduction: Feeling and Attitude.....	111
2	A Simplified View of Affect in HCI.....	112
2.1	Some Core Concepts of Affect	112
2.2	Affective Qualities and Affective Impressions in HCI	113
2.3	Applications of Affect to Computing	117
2.4	Affect and Performance	118
3	Attitudes.....	120
3.1	Attitudes—Concept and Measurement.....	120
3.2	TAM—Technology Acceptance Model.....	120
4	Expanded View of Affect in HCI.....	122
4.1	Attitudes Revisited.....	122
4.2	Satisfaction	123
4.3	Individual Differences and Training	124
4.4	Summary of Attitudes.....	126
5	Flow and Playfulness	126
6	Summary	127
7	Summary of Concepts and Terms.....	129
8	Bibliography and Additional Readings	129
9	Exercises	131

APPLICATIONS

► Chapter 7 Evaluation

1	Introduction.....	135
1.1	What to Evaluate: Multiple Concerns of HCI	135
1.2	Why to Evaluate.....	139
1.3	When to Evaluate.....	141
1.4	Issues in Evaluation	142
2	Usability and Usability Engineering.....	144
2.1	The Origin of Usability Concerns.....	144
2.2	Usability Definitions.....	144
2.3	Usability Engineering	145

2.4	Universal Usability	146
3	Evaluation Methods	146
3.1	Analytical Methods	147
3.1.1	Heuristic Evaluation	147
3.1.2	Guideline Review	150
3.1.3	Cognitive Walk-Through	151
3.1.4	Pluralistic Walk-Through	152
3.1.5	Inspection with Conceptual Frameworks such as the TSSL Model.....	152
3.2	Empirical Methods	160
3.2.1	Survey/Questionnaire	160
3.2.2	Interviews	163
3.2.3	Lab Experiment	164
3.2.4	Observing and Monitoring Usage through Field Studies.....	164
3.3	Comparison of Methods	165
4	Standards	165
4.1	Types of Standards for HCI and Usability	167
4.2	Common Industry Format (CIF)	167
4.2.1	Background and Current Status.....	167
4.2.2	The CIF Format	168
4.2.3	How to Use the CIF.....	169
5	Summary	169
6	Appendix A: The Detailed CIF Template	169
7	Appendix B: Research Tools	176
8	Appendix C: Sample Laboratories for HCI Studies.....	180
9	Summary of Concepts and Terms.....	187
10	Bibliography and Additional Readings	188
11	Case Study	190
12	Exercises.....	190

► Chapter 8 Design Principles and Guidelines

1	Introduction	194
2	Design Principles.....	196
2.1	Improve Users' Task Performance and Reduce Their Effort	197
2.2	Strive for Fit between the Information Representation Needed and Presented	197
2.3	Provide and Constrain Affordances to Capture Real-World Knowledge	198
2.4	Design for Error.....	199
2.5	Design for an Enjoyable and Satisfying Interaction.....	200
2.6	Promote Trust	201

2.7	Support Diversity of Users	202
3	Design Guidelines.....	202
3.1	Issue I: Consistency Guidelines.....	203
3.2	Issue II: User Control and Feedback Guidelines	208
3.3	Issue III: Metaphor Guidelines	211
3.4	Issue IV: Direct Manipulation.....	214
3.5	Issue V: Aesthetics in Screen Design	215
4	Summary.....	219
5	Summary of Concepts and Terms.....	220
6	Bibliography and Additional Readings	220
7	Case Study	221
8	Exercises	223

► Chapter 9 Tasks in the Organizational Context

1	Introduction.....	229
2	Characteristics of Organizational Tasks.....	231
3	Work at the Office as Context—Tasks and Their Interrelations	234
3.1	Characteristics of Different Types of Work	235
3.2	Information Processing Functions Supported by HCI.....	237
3.3	Work Modeling	238
4	Decision Making as Organizational Task	239
4.1	The Decision Life Cycle for Determining Requirements.....	239
4.2	Levels of Interaction in Decision Making	243
5	A Method for Task Analysis and Decision Support	245
5.1	An Overview of the Method	245
5.2	Situational and Functional Analysis	247
5.3	Constraint Analysis.....	249
6	A Demonstration of the Method for Task Analysis.....	250
7	Summary	253
8	Summary of Concepts and Terms.....	254
9	Bibliography and Additional Readings	254
10	Exercises	255
11	Appendix: Decision Decomposition Protocol	255

► Chapter 10 Componential Design

1	Introduction.....	258
2	Color	261
2.1	Color—Introduction	261
2.2	Color—The Building Blocks.....	263
2.3	Color—The Syntactic and Semantic Levels.....	263

2.4	Color—The Task Level	264
3	Data Input	265
3.1	Data Input—Introduction	265
3.2	Data Input—The Building Blocks.....	266
3.3	Data Input—The Syntactic and Semantic Levels.....	267
3.4	Data Input—The Task Level	267
4	Navigation and Flow Control	268
4.1	Navigation and Flow Control—Introduction	268
4.2	Navigation and Flow Control—The Building Blocks.....	269
4.3	Navigation and Flow Control—The Syntactic and Semantic Levels.....	271
4.4	Navigation and Flow Control—The Task Level.....	272
5	Quantitative Graphics	274
5.1	Graphics—Introduction.....	274
5.2	Graphics—The Building Blocks	275
5.3	Graphics—The Syntactic and Semantic Levels	276
5.4	Graphics—The Task of Deciding and Communicating	277
5.5	More on Graphics: Training, Individual Differences, and Affective Impressions	281
6	Form Design	282
6.1	Forms for Data Input—Introduction	282
6.2	Form Fill-In—The Building Blocks	283
6.3	Form Fill-In—The Syntactic and Semantic Levels.....	283
6.4	Form Fill-In—The Task level.....	284
7	Summary	286
8	Summary of Concepts and Terms.....	287
9	Bibliography and Additional Readings	287
10	Exercises.....	288

▶ Chapter 11 HCI Development Methodology

1	Introduction	293
2	The Role of HCI Development in SDLC	294
2.1	SDLC: The Systems Development Life Cycle	294
2.2	HCI in SDLC: What It Has Been	297
2.3	The Human-Centered SDLC Model: HCSDLC.....	297
2.4	Modern SA&D and HCI: Different Emphases.....	298
3	The HCI Development Methodology	299
3.1	Philosophy, Strategies, Principles, and Guidelines	300
3.2	The Project Selection and Planning Phase	300
3.3	The Interaction Analysis Phase	301
3.3.1	Requirements Determination and User-Needs Test	301

3.3.2	Context Analysis.....	302
3.3.3	User Analysis.....	303
3.3.4	Task Analysis.....	304
3.3.5	Evaluation Metrics.....	305
3.3.6	Alternative Generation and Selection.....	305
3.4	The Interaction Design Phase.....	306
3.4.1	Interface Specification.....	306
3.4.2	Metaphor Design.....	307
3.4.3	Media Design.....	307
3.4.4	Dialogue Design.....	307
3.4.5	Presentation Design.....	308
3.4.6	Formative Evaluations.....	308
3.5	The Implementation Phase.....	308
3.6	Prototyping.....	308
3.7	Documenting HCI Development Activities and Deliverables....	309
4	Applying the HCI Development Methodology.....	309
5	Summary.....	317
6	Summary of Concepts and Terms.....	317
7	Bibliography and Additional Readings.....	318
8	Case Study.....	318
9	Exercises.....	324

ADDITIONAL CONTEXT

► Chapter 12 Interpersonal Relationships, Collaboration, and Organization

1	Introduction.....	328
2	Collaboration.....	328
2.1	Collaboration—The Building Blocks.....	330
2.2	Collaboration—Semantic and Syntactical Level.....	331
2.3	Collaboration—Task Level.....	331
3	The Issue of Trust.....	332
4	Communication and Technology.....	333
4.1	Information Richness Theory.....	333
4.2	Social Identity and De-individualization (SIDE) Process.....	334
5	Work Group Level.....	335
5.1	Group Decision Support Systems (GDSS).....	335
5.2	Virtual Teams.....	338
5.3	Culture and CSS.....	339
5.4	Leadership and GSS.....	341
5.5	Anonymity and GSS.....	342

6	Enterprise-Level Systems	343
6.1	Wiki	343
6.2	Anthony's Triangle (Also Known as Anthony's Pyramid).....	345
6.3	Communication Support Systems	347
7	Enterprise-Level Implementation Issues	348
7.1	Innovation Diffusion Theory	348
7.2	Technology Acceptance Model and the Organizational Level...	350
8	E-Commerce: Linking the Customer to the Enterprise	351
8.1	Trust and TAM in Online Shopping	352
8.2	Consumer Behavior Models	353
9	Summary	354
10	Summary of Concepts and Terms.....	355
11	Bibliography	355
12	Exercises.....	357

▶ Chapter 13 Social and Global Issues

1	Introduction	360
2	Social Context	361
2.1	Anxiety	361
2.2	Alienation	362
2.3	Potency and Impotence of the Individual	365
2.4	Complexity and Speed.....	366
2.5	Organizational and Societal Dependence	367
2.6	Unemployment and Displacement	368
2.7	Valuing Human Diversity	369
3	Ethical Considerations.....	370
3.1	Accessibility	370
3.2	Privacy	371
3.3	Accountability	372
3.4	Intellectual Property	373
3.5	Using Computers to Support Social Responsibility	373
4	Global Context	374
4.1	Software Globalization.....	374
4.2	Software Localization.....	376
5	The Social and Global Aspects of the Internet.....	379
5.1	Social Impact of the Internet	379
5.2	Global Impact of the Internet	380
6	Summary	382
7	Summary of Concepts and Terms.....	384
8	Bibliography and Additional Readings	384
9	Case Study	386
10	Exercises.....	387

► Chapter 14 Meeting the Changing Needs of IT Development and Use

1	Introduction.....	390
2	Emerging IT Use Changes and the Impacts.....	391
2.1	Ubiquitous Computing (UbiComp).....	391
2.1.1	What Is UbiComp?	391
2.1.2	Challenges for HCI Design and Evaluation.....	392
2.2	Social Computing and Communityware.....	393
2.3	Value-Sensitive Design (VSD)	395
2.3.1	What Is VSD?.....	395
2.3.2	Case 1: Room with a View: Using Plasma Displays in Interior Offices.....	395
2.3.3	Case 2: UrbanSim: Integrated Land Use, Transportation, and Environmental Simulation	399
2.3.4	VSD and HCI Development	401
3	Emerging IT Development Changes.....	402
3.1	Open Source.....	402
3.1.1	What Is Open Source?	402
3.1.2	Challenges for HCI Design and Evaluation.....	404
3.2	Component-Based Software Development (CBSD).....	405
3.2.1	What Is CBSD?.....	405
3.2.2	Challenges in HCI Design and Evaluation	405
3.3	Outsourcing, Offshore Outsourcing, and Freelancing	406
3.3.1	What Are Outsourcing, Offshore Outsourcing, and Freelancing?.....	406
3.3.2	Challenges in HCI Design and Evaluation	408
4	Summary.....	410
5	Summary of Concepts and Terms.....	410
6	Bibliography and Additional Readings	410
7	Case Study	412
8	Exercises	412
	Glossary	413
	Bibliography	421
	Subject Index	433
